

## Telephone pron game

**Type of activity:** Warmer – pronunciation of vowel sounds

**Aim:** To practice different individual vowel sounds

**Level:** All, though probably better from A2 (Elementary) up

**Materials:** White/Smartboard

**Procedure:**

1. Teacher writes 0-9 on board as a list and then writes a word next to each,

0 =	bit
1 =	beat
2 =	bet
3 =	bat
4 =	but
5 =	bait
6 =	boot
7 =	bought
8 =	bite
9 =	burnt
10 =	boat

2. Short practice saying/drilling each word and identifying the vowel sound in each.

3. Put sts in pairs. Each student has to tell their partner their phone number using the words, not the numbers. (This could also be done as a mingling activity, where the sts circulate to music and find a partner when the Teacher stops the music).

4. At end of activity spend some time drilling the words that are most problematic - usually 0 and 1, and 2-4! Good for both monolingual and multilingual classes and for all levels.
